**I was alone like a story untold  
I have searched all my life  
To know a love like Yours  
When You came You wrote the words  
That gave me love to see  
That the pen was you, and page was me**

**You wrote the story of my life  
Inscribing love on me  
In words my heart could read  
Only You took the emptiness of me  
Composed love I could see  
Now I am complete  
Cause the Pen was You  
And the Page was me**

**Time passes by  
Our love never dies  
Age to age, page to page  
The story never fades  
We're a book filled with love  
The words forever say, the words forever say**

**We go one and on  
Cause the pen is You  
And the page is me**
